

**“Incubation Models for social & creative entrepreneurship:
sharing knowledge and testimonials”**

22 November 2016 – From 15h00 to 17h00 (London time)

Organised by Dialogue Café Association

DC Participants: Evora, Lisbon, Rio de Janeiro

Overview

A vibrant and diverse social enterprise incubation landscape has been rapidly evolving over the last years. Incubators and accelerators have been pioneers in successfully combining support services including mentoring, funding, business development and infrastructure, to support the emergence of innovative social enterprises and start-ups. In this framework, social and creative entrepreneurship has also found a place and the support from different specialised incubators. Variations in the focus of social incubators have also led to emergence of unique operating and financing models of these social enterprise incubators.

Aim

As follow-up of the [cycle on social and creative entrepreneurship](#) organised by Dialogue Café in 2015, we would like to launch an knowledge Exchange session with the main purpose of review the existing incubation models in the social and creative sector, provide an opportunity to exchange practices and promote networking between social enterprise incubators and other eco-system players from across the world.

With this objective incubators and projects incubated working in the social and creative sector will be invited to participate in this session and share challenges and experiences.
